

Communication Strategy Memo

1/23/2026
KIMinder360 Team

Part 1: Team Communication Strategy

Weekly Team Meeting Time

Primary Time: Thursday 4-5pm

Backup Time: Friday 1-2pm

Our client meeting takes place online on Thursday from 4-5pm and our private team meeting takes place in-person for an hour after that meeting concludes. In case of scheduling conflicts a backup meeting time is reserved on Friday from 1-2pm. This time is known to be free due to capstone lectures being scheduled during that time.

Additional Coordination Mechanisms

Impromptu Meetings: On demand meetings may be scheduled on *discord* in cases where waiting until the next weekly meeting would be unacceptable.

Communication tools/channels: Email, Discord, and Text Message

All the above listed communication methods may be used to get in contact with team members but for more urgent matters Discord and Text Message are preferred.

Clear expectations: Impromptu meetings should be scheduled beforehand with a lead time of at least 1 day to up to a week.

Part 2: Mentor Meeting Plan

Weekly Mentor Meeting Time: Tuesday 4-5pm

Weekly Task Report:

1. Tasks completed since the last meeting
2. Tasks currently in progress (including individual assignments)
3. Tasks anticipated in the near future

Task Report Strategy

We will use the task tracker to keep track of tasks and their statuses. We will also make sure that the meeting tasks entered into the document are noted with the task. We will also make sure that our mentor has access to the project github when needed so that project contributions may be tracked.
